

The Microsuction Earwax Removal Network Expands to 30+ Locations

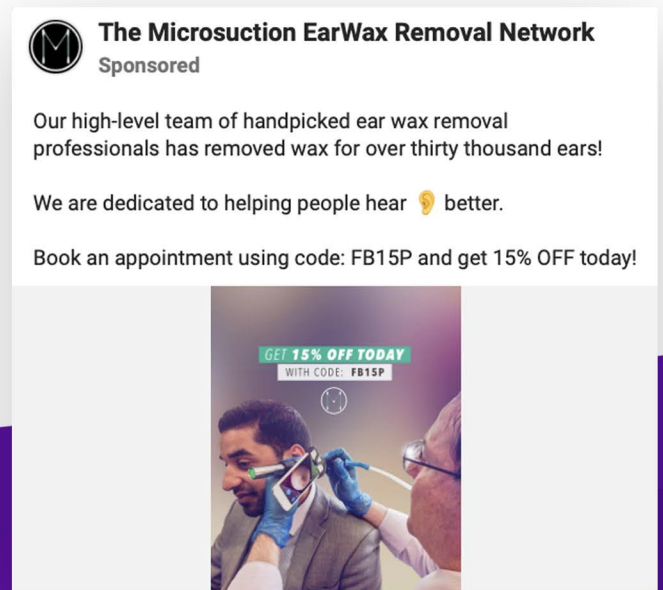

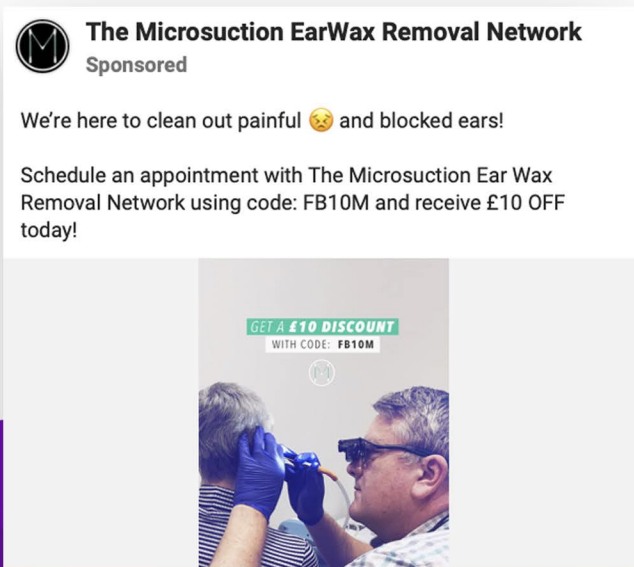

The Microsuction Earwax Removal Network is an audiologist-led network of earwax removal clinics that have removed wax from over ten thousand ears.

Wanting to stay profitable, **they reached out to Monster Agency®** to establish a solid funnel of leads and ensure their vast network of clinics remained busy.

The campaign lasted for over a year and we were able to lower lead costs to \$5 per lead. After more than a year, the campaign was pulled in-house as **The Microsuction Ear Wax Removal Network had expanded to more than 30+ locations!**

RESULTS:

Brought in leads for less than \$5/lead helping them expand to **more than 30+ locations**
